

Most of the OKRID related work of late has been getting approvals and arrangements made for the upcoming workshops. I have put out the schedule and opened registration for everything through March at this point. We have workshops scheduled through June. If we have the presenter using English, we are providing ASL interpretation regardless, and either need to pay terps or have Board members volunteer. Anne and I are willing to do most of it, but in the event we can't, we would need coverage. We also need some tech support for the Zoom chat, spotlights, etc. for some of the workshops. If anyone wants to volunteer for that, let me know.

Student rate - Do we want to offer a less than member student rate?

Arkansas ARID is hosting their annual conference virtually this year, there is a call for presenters out if anyone is interested in that, or in attending.

We had 34 in attendance at Dr. Stauffer's workshop last Saturday.

Current Schedule

Feb 18 - Marci Purtell

6-9 pm

Becoming the Ideal Team Player

Feb 20 - Hybrid Zoom - Cardiovascular System with Stephanie Winslow
